## NOW MORE THAN EVER

Hurricane Irma hit the Keys on September 10, 2017, but her impact will be felt for years. Affordable housing was at a critical state before Irma and the need has only been magnified. Habitat for Humanity of the Upper Keys believes in #KeysStrong and has been at the forefront of providing homes to qualifying, lower to moderate-income families in need. Now more than ever, HFHUK needs your support to help the Keys rebound and ensure affordable houses are built. All donations to the Construction Fund remain with HFHUK for use in our upper Keys communities.

## OUR GOAL: BUILD 50

In 2017, HFHUK embarked on a campaign to **BUILD 50**. Since our inception, 33 houses have been built and purchased by local families as their first homes. These homes are built on the Habitat principles of simple, decent, and affordable, and we are pleased to report the houses we built survived Hurricane Irma with no damage to their structures. We are proudest of our Mandalay project, completed in 2017 in Key Largo, where seven homes were built.

*Completed 7 Mandalay homes*

HFHUK has another eight lots in inventory. Called the Esslinger Corner Project, ground breaking is planned on three of those lots in Islamorada.

*Future Habitat homes at "Esslinger Corner"*

*Completed Holtzman homes*

## OUR HABITAT FAMILIES

Families have to qualify to purchase a Habitat home. To qualify, families must meet income guidelines based on the size of household, have a credit rating of 600 or higher, are currently living in a substandard situation, and are required to put in "sweat equity" to Habitat long before they know if they qualify to purchase a Habitat home. Many of these families continue to volunteer time to HFHUK long after they move into their homes.
